

# CREATE YOUR OWN INFOGRAPHIC

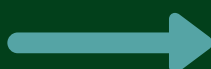

## WATCH THE VIDEO

Watch the video with your group. Decide how to divide the topic into different sections giving a short heading for each section

## WRITE THE TEXT

Once you've agreed on the different sections for your infographic you each need to choose one or two sections to write up as a short text (approx. 30 words per section)

## CHOOSE A TEMPLATE

Look at the different templates and decide which one will work best for your topic. Think about how you want the sections to link together

## PROOFREADING

Check all the texts looking for any mistakes in spelling or grammar. Make sure the writing is easy to understand and not too long

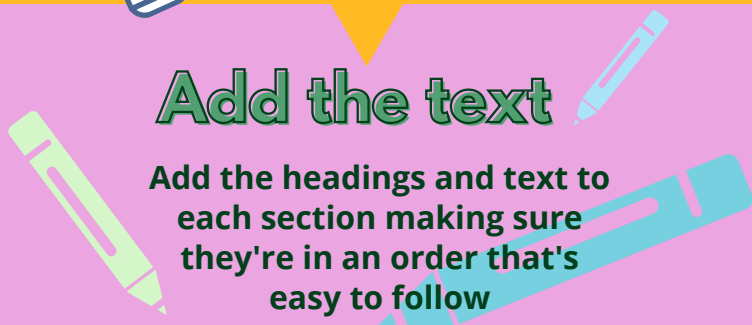

# NOW LET THE CREATIVE FUN BEGIN!

## Add the text

Add the headings and text to each section making sure they're in an order that's easy to follow

## Find images

Find suitable images which help the reader to understand the information in each section

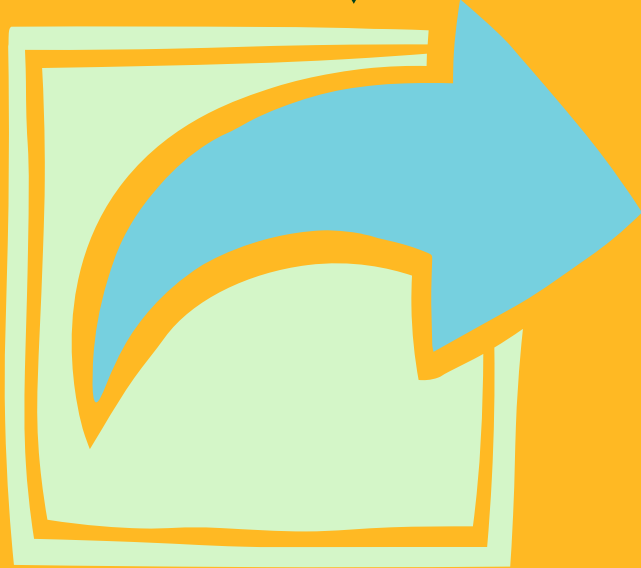

## Save & Download

When you are all happy with your infographic save it as a PDF document

## Make it beautiful

You can try out different colours, text sizes, fonts and effects to make your infographic look fantastic - but remember to keep it simple!
